

ANGUS ADVANTAGE

**EXCLUSIVE DATA AND INSIGHTS FROM
STUD ANGUS AUCTIONS IN AUSTRALIA**

NOVEMBER 2025

**PRESENTED BY
JACKAROO ANGUS STUD**

WHAT IS ANGUS**ADVANTAGE**

AngusAdvantage is a monthly publication which aims to help stud Angus breeders stay up-to-date with the landscape of the Australian market.

Every month, we extract and analyse the listings and results of all Stud Angus auctions from the AuctionsPlus and Angus Australia websites directly.

We analyse **UPCOMING** auctions to identify stock coming up for sale in the month ahead and help readers find and be prepared for the sale of specific genetics, programs or animals. We create a directory of upcoming sire genetics to make sure buyers never miss a sire they are interested in.

We also analyse **COMPLETED** auctions, using price data to highlight key information about specific sales, outstanding results and price trends for sire and dam genetics. We include a directory of all sold sire genetics in the month to help buyers and sellers track sire performance in the market.

**Available exclusively through Jackaroo
Angus Stud**

MONTHLY INSIGHTS

An extremely quiet time of year for Stud Angus sales, but some interesting opportunities to secure Female genetics on the horizon.

In the past month, there were just 45 stud Angus lots sold across 3 sales on AuctionsPlus - compared to 3,345 lots across 65 sales in September during peak season. The top sale price in the past month (\$12,000) was the lowest since this publication began.

Looking ahead, there are 148 lots across 3 sales listed on AuctionsPlus, an increase since the last edition of AngusAdvantage, but still supply is low.

Interestingly, there is a big shift in the upcoming month towards Females for sale, with 65% of upcoming lots being female (compared to 14% in October and 2% in September). With 96 female lots including 38 PTIC heifers, the next few weeks will be a good opportunity to acquire some additional breeders for your program.
